

T5 Skeletor

T5 Skeletor energy efficient

T5 Fluorescent

T5 Skeletor is a super slim fluorescent light which is ideally suitable for behind or underneath cupboard shelving.

The fitting uses the latest **High Frequency** Ballasts and lamps to give an average lamp life of **30,000 hours**.

The Altima Light Efficiency label indicates that the lamps and design meet the Part **L1 and L2** Building Regulation specifications for energy use and light output in residential and commercial applications.
