

Rod Suspension

Single Track Rod Suspension

Adjustable length rod suspension system for use on ceilings with Altima's single track.

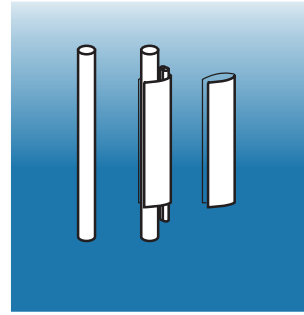

Supplied with rod in lengths of 0.5m or 1.5m. These can be cut to size on-site. Fine adjustments are incorporated at the base for levelling the track.

Double Track Rod Suspension

Adjustable length rod suspension system for use on ceilings with Altima's double track.

Supplied with rod in lengths of 0.5m or 1.5m. These can be cut to size on-site. Fine adjustments are incorporated at the base for levelling the track.

Power Cable Cover

A Plastic Profile to conceal the power feed cable. The cover clips over the cable and clips onto the rod. This is supplied in a 1.5m length and can be easily cut.
